Understanding subordinating conjunctions is essential for us to master the art of writing and speaking because they help us indicate relationships such as time, cause and effect, condition, and concession.Definition and RoleSubordinating conjunctionsserve a crucial function in sentence structure by connecting a dependent clause to an independent clause. The main role of these conjunctions is to show the relationship between the two clauses in terms of time, cause and effect, contrast, or condition.Cause and effect: because, since, so thatTime: after, before, once, untilContrast: although, even though, whereasCondition: if, unless, provided thatThese words signal that the dependent clause complements the main one, adding necessary detail or context.Formation and StructureTo properly use subordinating conjunctions, we need to understand how they impact the structure of our sentences. Heres a straightforward way to see how they fit:Independent Clause: Can stand alone as a sentence.Dependent Clause: Cannot stand alone. Needs the independent clause to make sense.Subordinating Conjunction: Introduces the dependent clause and shows its relationship to the independent clause.Here is an example for clarity:Independent Clause: She finished her report.Subordinating Conjunction: beforeDependent Clause: the deadline was due.Full Sentence: She finished her reportbeforethe deadline was due.The Importance of Subordinating ConjunctionsCoherence in WritingWe use subordinating conjunctions to link independent clauses to dependent clauses, which is essential for creating coherent paragraphs. For instance:Time:We waited until the sun set.Condition:If you hurry, you can catch the bus.Clarity of IdeasBy using subordinating conjunctions, we clarify the relationship between different parts of a sentence. Consider the following examples:Cause and Effect:Because it was raining, the picnic was canceled.Contrast:Even though it was cold, we decided to go for a walk. Subordinating conjunctions are the connectors that link a dependent clause to an independent one within a sentence. Lets examine the various types and see how they function.TimeTime-related subordinating conjunctions establish when something happens. They set the stage for actions by indicating temporal relationships. Here are some key examples:after: Well leave after the meeting concludes.before: Finish your homework before you watch TV.since: We have been best friends since childhood.until: Wait here until I return.when: Call me when you arrive.while: While I was reading, the phone rang.ConditionConditional subordinating conjunctions specify the prerequisites for an action or state to occur. These conjunctions include:if: We can go to the park if it doesnt rain.unless: Ill attend the wedding unless I have to work.provided that: You may use my car provided that you fill up the tank.as long as: I will support you as long as you try your best.Cause and EffectTo express causality, we use subordinating conjunctions that connect reasons to outcomes. This linkage is critical for understanding the motivation behind actions. Notable conjunctions are:because: We stayed indoors because it was thundering.since: Since you asked nicely, you may have a cookie.so that: We set an alarm so that we wouldnt oversleep.Contrast and ConcessionConjunctions of contrast and concession show an unexpected relationship or contradiction between clauses. These are powerful tools for conveying surprise or exceptions, such as:although: Although it was raining, we had a great picnic.even though: We went hiking even though it was chilly.despite: Despite having a headache, she finished the marathon.whereas: You like to ski, whereas I prefer snowboarding.List of Subordinating ConjunctionsLearn 50 subordinating conjunctions list in English grammar.afteralthoughasas ifas long asas much asas soon asas thoughbecauseberoreeveneven ifeven thoughifif onlyif whenif theninasmuchin order thatjust aslestnownow sincenow thatnow whenonceprovidedprovided thatrather thatsinceso thatsupposingthanthatthoughtillunlessuntilwhenwhenever whereever whereas whereever ifwhereverwhetherwhichwhilewhohoeverwhyExample sentences:It is easy to prophesyafter the event.She walked home by herself,although she knew that it was dangerous.The lion is not so fierceashe is painted.It looksas ifits going to rain.Ill love you as long as I live.The final cost could beas much asone billion dollars.As soon asheee sawe can afford it, well move out to the suburbs.The builder looked at meas thoughI was barking mad.The devil knows may thingsbecausehe is old.We shouldnt slight anybodyeven ifhes a nobody.He had no plans to retireeven thoughhe is now very comfortably off.He knows much who knowshowto hold his tongueA dog will not howlifyou beat him with a bone.He left early in order thathe should/would/might arrive on time.I obeyed herlestshe should be angry.The other banks are going to be very eager to help,providedthat they see that he has a specific plan.I tend to forget thingsunless I mark them down.Frequently Asked QuestionsWhat is the purpose of subordinating conjunctions in complex sentences?Subordinating conjunctions serve to connect independent clauses with dependent clauses, providing necessary context such as time, reason, condition, and contrast. By doing so, they help complex sentences convey more detailed and nuanced information.Can you list examples of subordinating conjunctions commonly used in English?Certainly! Some frequently used subordinating conjunctions are although, because, if, since, unless, while, and after. These words introduce subordinate clauses and establish a relationship with the rest of the sentence.How does a subordinating conjunction differ from a coordinating conjunction?A subordinating conjunction connects a dependent clause to an independent clause, indicating that the former provides supplementary information. In contrast, a coordinating conjunction like and, but, or or links two independent clauses that are of equal importance in the sentence.What are some tips for identifying subordinate clauses in sentences?To identify a subordinate clause, look for a clause that cannot stand alone as a sentence and that is connected to an independent clause. This clause will provide additional information but needs to be connected to an independent clause to make sense.How do subordinating conjunctions affect the structure by indicating that the information in the dependent clause is of secondary importance, supporting the main idea found in the independent clause. This hierarchical relationship helps clarify the significance of different parts of a sentence.What are some common mistakes to avoid when using subordinating conjunctions?One common mistake is using a subordinating conjunction without a following dependent clause, which can result in a fragmented sentence. Avoid creating a sentence with two subordinating conjunctions that cause confusion. Additionally, be mindful not to use a subordinating conjunction in place of a coordinating conjunction or vice versa, as this can alter the meaning and clarity of your sentence. Words that Start with I! In this article, you will learn a list of commonly used words starting with i in English with ESL pictures.
