Chess study

Select a color: [Blue](#) [Brown](#) [Green](#) [IC](#) Select a piece set: [cburnett](#) [merida](#) [chessnut](#) [pirouetti](#) [pixel](#) [shapes](#) [letter](#) All studies [Topics](#) [Staff picks](#) [What are studies?](#) Improve your calculation skills by solving endgame compositions online. Not only that, but you will sharpen your imagination and awareness of the unexpected! You can solve the studies here in different ways, by playing both sides' moves with hints and engine analysis available, or using the more serious Rated mode: In Rated mode, you solve the study by playing it against the computer. For maximum training effect, this mode allows your efforts to be scored and compared with other users. Enjoy! How can I get better at chess? What's the best way to organize my limited study time? What's the right training plan for my level? Does that sound like you? Well, not anymore! Study guides tell you everything you need to know about how to improve at chess. These guides are all designed by experienced, high-level coaches and tailored to specific levels. They let you know the best ways to train and how to organize your study time. [NM Dane Mattson's Beginner Study Guide: For Ratings Below 600](#) This guide is a great way to start your chess journey or to help you solidify the basics as you prepare for more.
