1. Kraino Origins - A spooky platformer where players must control Kraino, a resurrected skeleton who battles Dr. Bacula's creatures in creepy environments. 2. The Baby in Yellow - A Lovecraftian horror game that lets players babysit a sinister baby while exploring a creepy atmosphere and 3D graphics. 3. Eyes - A survival horror FPS with ghosts, monsters, and surprising jump scares, where players must explore locations and plan their next move using mystical eye runes. 4. Evil Nun: Horror at School - A first-person title where players evade an evil nun in a haunted school, solving puzzles to escape before being finished off. 5. Moth Lake - A narrative-driven game with stealth elements and a branching storyline, featuring seven characters making difficult choices that affect relationships and character development. 6. Rusty Lake Games - Engaging macabre puzzle titles from developer Rusty Lake, including Hotel and Paradise, where players solve creepy puzzles while dealing with missing guests and curses. The Top iPhone Horror Games to Send Chills Down Your Spine Given article text here Here are the top iOS horror games for your iPhone and iPad, bringing you right into the scary scene: 1. **Fran Bow***: A point-and-click adventure horror game filled with dread, where you explore an asylum and a strange world. 2. **Rest in Pieces***: A unique runner where you play as a fragile doll facing your fears to survive. 3. **Forever Lost***: A classic point-and-click horror game with great graphics and puzzles that get scarier the more you explore. Try these titles for a thrilling experience, or check out the full list of the best iOS horror games! If you haven't tried The Walking Dead game yet, now's the time to give it a shot. This five-part episodic horror series brings brand-new characters to the forefront, with some familiar faces making appearances as well. Although it may not be as spine-tingling as other iOS horror games, it's still definitely worth downloading. Wales Interactive has carved out a niche in FMV games and their latest attempt is Night Book, a horror-flavoured game that follows Loralyn as she gets tricked into reading an ancient book, unleashing a demon into her room. To save her family, you'll have to make crucial decisions throughout the game, with multiple endings waiting to be discovered. Horror House Escape Games is another point-and-click horror game for iOS where your main goal is to escape the building by solving mysteries and puzzles. Some tasks are simple, but there's also plenty of complex conundrums for puzzle enthusiasts to tackle. In this creepy setting, you'll meet various characters who aren't exactly thrilled to see you in their house. Fighting Fantasy: House of Hell lets you navigate a monster-filled mansion after your car breaks down during a freak storm. You'll have to pick up items and battle nasties, all while making hundreds of decisions that can change the course of your story. Another unsettling point-and-click adventure is Samsara Room where you wake up in an unfamiliar room with no recollection of how you got there. Your goal is to escape but you're constantly seeing something creepy lurking in the shadows. With challenging puzzles and a creepy atmosphere, it's a must-play game that's even been remade for free. Sentence takes you on a thrilling ride through a small town where young girls are being kidnapped and murdered one by one. You'll have to balance messages with loved ones while hacking into databases, eavesdropping on conversations, and trying to identify the real serial killer without becoming his next victim. Game for iPhone is packed with ghosts, monsters, and the unsettling feeling that you're being watched all the time, plus spooky jump scares. I'm not a fan of jump scares myself, but if that's what you're looking for, this horror title won't disappoint. You'll be trying to escape abandoned rooms, finding useful items, and staying within the light as you navigate through the game. Download Eyes: Horror & Scary Monsters Death Park takes you on a journey through an abandoned amusement park with a creepy old circus that's home to a terrifying killer clown looking to kill you ASAP. To survive, you'll need to find items, solve puzzles, and avoid this murderous clown. Download Death Park: Scary Horror Clown Evil Nun is an unsettling iOS horror game where you don't know what happened to the Nun - could she be possessed or part-zombie? One thing's for sure, though - she's out to kill you. You'll need to explore, solve puzzles, hide, and most importantly survive as this crazed old woman tries her best to destroy you. Download Evil Nun Little Nightmares started on PC and consoles before making its way to mobile devices. This atmospheric horror platformer and puzzler follows the Six, a skinny girl in a yellow raincoat desperate to escape the Maw. She's quick, agile, and doesn't care about other trapped children - she just wants to survive. The atmosphere is always tense, and the background music emphasizes it throughout your journey. It's a premium title, but I highly recommend it. Download Little Nightmares Dead by Daylight is a multiplayer action-horror game where four teenagers and a maniac are trying to destroy everyone and everything. One player must run away from their pursuer while the other plays as the maniac, killing the kids. The levels are randomly generated, offering a new experience each time you play. Each character has unique skills they can use in their bid for survival. If you decide to give it a try, redeem DBD codes and check out the Dead by Daylight killer tier list to learn about the scariest villains. Download Dead by Daylight Mobile Alien: Isolation is a first-person stealth horror adventure game set in the Alien universe. It takes place 15 years after the events of Ridley Scott's Alien. You play as Amanda. Ellen Ripley's daughter, who's trying to survive against deadly creatures and other terrors. Given article text here Alien: Isolation Hello Neighbour! is an adventure horror with stealth elements and first-person view where you have to face the crazed androids at the Sevastopol trading station. The game follows a man who witnesses a terrible crime committed by his neighbour, who takes people in his basement. To expose him, he has to sneak into the basement secretly. Meanwhile, Hello Into the Dead 2 is a scary survival game where your goal is to survive from monsters that are always hunting you. The atmosphere here is perfect and zombies look very dangerous. You can also play this terrifying game with friends. The world of horror games on iOS offers a thrilling experience for players. Sara Is Missing Secret Neighbor and its sequels invite players to explore eerie environments while facing challenges in co-op gameplay. Download Secret Neighbor Knock-knock is another immersive game where the player must maintain their sanity by hiding from supernatural guests in a wooden house, searching for gaps for forest creatures to enter. In addition, the developer of Slender: The Eight Pages has reimaged the series with improved graphics and a single-player campaign that delivers an intense horror experience. Other notable titles include Knock-Knock Slender: The Arrival, which features a massive improvement in visuals, and The Baby In Yellow, where players must care for an infant exhibiting strange behavior. Furthermore, Year Walk offers a unique puzzle-solving experience set in a snow-covered 19th-century Swedish forest, where the player is part of a ritualistic vision quest to uncover the future.
