The Police Academy franchise is a cult comedy classic that still charms audiences today. The series consists of seven movies, two TV shows, and a comic book series, all released between 1984 and 1994. Each movie follows a similar premise: misfits trying to join the police academy and become full-fledged officers. Let's take a trip down memory lane as we explore the Police Academy movies in release order. The first movie, simply titled "Police Academy," was released in 1984, followed by "Police Academy 2" just a year later. The third installment, "Police Academy 3: Back in Training," came out in 1986, and "Police Academy 4" hit theaters in 1987. The franchise concluded with the final two movies, "Police Academy 5" (1988) and "Police Academy 6" (1989), followed by "Police Academy: The Ultimate Adventure" (1994). Watching the series in chronological order allows you to follow the linear storyline easily. However, each movie can also be enjoyed on its own. The Police Academy franchise's enduring popularity is a testament to its low-brow humor, physical comedy, and subtle sexual innuendos. The consistent cast, including some familiar faces today, adds to the series' charm. Police Academy Franchise: A Look at the Movies The Police Academy franchise started with the original film in 1984, which set the tone for future movies. The first film follows a new recruitment policy that lets anyone enroll in the police academy, leading to chaos and comedic mayhem as Carey Mahoney navigates his way through. The movie was a commercial success, earning over \$150 million. The second installment, released in 1985, introduces a similar premise with the graduating cadets facing off against notorious gangs in the city. While also commercially successful, critics found the humor to be less effective than the first film. However, this has not deterred fans from enjoying the series. Police Academy 3: Back in Training (1986) continues the story of the original police academy graduates as they face budget cuts and must convince Governor Neilson to keep their academy open. This installment also received commercial success but faced criticism from critics, who deemed it an improvement over the second film. The fourth movie, Citizens on Patrol (1987), brings new characters and a fresh approach, with Commandant Lassard recruiting citizens to aid the police force. However, Captain Harris has ulterior motives and seeks to sabotage this initiative. Critics have been less than impressed with this installment, labeling it as childish and unfunny. Future projects are currently in development, offering fans more opportunities to enjoy the Police Academy franchise. Fans backed the film, earning it almost \$80 million at the box office. However, Police Academy 5 suffered due to the absence of Carey Mahoney as Steve Guttenberg starred in Three Men and a Baby instead. To fill the gap, Matt McCoy played Commandant Lassard's nephew. The story revolves around Cpt. Harris's attempt to take over as new Commandant from Erik Lassard, who tricks him into postponing retirement. Meanwhile, Sergeant Nick Lassard helps his uncle's favorite graduates catch diamond thieves in Miami and thwart Harris' plans. Despite being profitable, the movie received negative reviews and was deemed the worst of the franchise. The sixth installment saw Carey Mahoney missing again, with Sergeant Nick Lassard reprising his role. This time, the city faces massive robberies, prompting original police academy graduates and Commandant Erik Lassard to find a solution. City Under Siege failed commercially and received negative reviews, marking the first time a Police Academy movie didn't top the U.S. box office. The franchise's last film was released in 1994, nearly six years after the previous installment. This marked the first international production of the series, with filming taking place in Russia in 1993. The cast and crew underwent significant changes over the years, with only three original members appearing in this installment. The story follows police graduates and Commandant Erik Lassard as they help Russian colleagues deal with rampant Mafia boss Konstantine Konali. The movie received negative feedback commercially and critically, marking the end of the Police Academy franchise. After years of development hell, the eighth installment of the Police Academy franchise is finally taking shape. In 2018, Steve Guttenberg, who played Carey Mahoney in the original movies, announced that a new Police Academy project was underway on Twitter. Since then, he has teased that the movie is truly developing and that more details will be shared soon. Joining him are other original cast members, including Michael Winslow, who portrayed Officer Larvell Jones. Despite the setbacks caused by the deaths of some original cast members, fans can now hope that the project will finally come to fruition. Police Academy's Streaming Release Date in India - A Franchise of Filler The streaming release date of Police Academy (1984) in India has not been explicitly mentioned. Watching all seven films in the series reveals a clear trend: their spiritual successors are often Adam Sandler's recent movies, such as Date Movie and Meet the Spartans. Each year, another film is released, which receives critical maulings but surprisingly good box office returns. The franchise had potential to be good, but it has devolved into filler, with most films receiving little to no substance behind their jokes. The original cast's chemistry was one of the few redeeming qualities, although Steve Guttenberg's wisecracking style lacked wisdom. The writing team's approach often fell flat, and the pacing left much to be desired. Despite some pedigree among the writers, including Pat Proft, who co-wrote other comedies like Hot Shots!, the franchise has lost its momentum over time. The films' lack of quality is evident in their formulaic structure and one-note characters. The series never gained any real momentum, instead relying on rehashed jokes and a rigid formula that left viewers feeling disappointed. The cast's comedic timing was inconsistent, making it difficult to find humor in the films. Even now, ranking the seven Police Academy movies is a challenging task, as their quality varies greatly from one another. Police Academy 5: Assignment - Miami Beach is a film that can't seem to get its act together. It starts off strong with a nostalgic '80s moment featuring Michael Winslow and Steve Guttenberg dancing in their police car, complete with a catchy tune called "Citizens on Patrol." However, like all Police Academy films, it slowly builds a sense of dread as it meanders through its predictable plot. The movie tries to keep the audience engaged with some skateboarding sequences but eventually resorts to a big crime happening near the end, which is resolved by the same characters who aren't liked by Captain Harris. A standout moment comes when Tackleberry eats with his in-laws and looks appalled at what he sees, giving us a sense of how the audience must feel. One notable aspect of this film is its lackluster ending, where Hightower's potential death from fighting an alligator is teased but never actually concluded. This would have made for an incredibly jarring and memorable conclusion to the series. The cast of Police Academy 5 includes Ron Perlman, Christopher Lee, Clare Forliani, and a few others, but it feels like they're just going through the motions rather than adding any real depth to the story. The film's low budget is evident in its smaller central cast, which only adds to the overall feeling of lackluster production. Perhaps the most annoying aspect of this film is its excessive use of idiotic sound effects that serve no other purpose than to be absurd. Ron Perlman gets kneed in the balls and we're treated to a cow mooring sound effect - it's a joke that doesn't quite land. The highlight of Police Academy 5 is Christopher Lee throwing something at Michael Winslow for making noises, which feels like a rehashed moment from previous films but still manages to be somewhat entertaining. The recurring antagonists, Captains Harris and Mauser, are their usual humourless selves, getting pranked by the police officers in this film. Overall, Police Academy 5: Assignment - Miami Beach is another lackluster addition to an already underwhelming franchise. The Police Academy films are pretty cringeworthy when it comes to comedy, and City Under Siege is no exception, especially considering the multiple attempts at writing a decent script. However, one saving grace is Otto's appearance from Malcolm In The Middle, which manages to make the first ten minutes somewhat enjoyable without any joke falling flat. Unfortunately, this energy quickly dissipates as the film remembers it's part of the Police Academy franchise and loses its momentum. Notably, the composer tries too hard to convey that the movie should be funny, making it even more pitiful. Unlike other films in the series, City Under Siege has a composer who wants you to know that it's meant to be humorous, which is quite sad. The film also attempts to focus on an actual mystery for the plot, something that the previous ones didn't quite achieve. The final hour of the movie is filled with everyone from the squad getting their own fight scene, much like a Police Academy take on The Avengers. It's worth noting that this particular film is aimed at children and, in terms of its own goals, might be considered somewhat successful compared to other films in the series. Police Academy's third installment has finally figured out how to make the concept work, thanks in part to guest actors who bring some much-needed humor and tension. Bobcat Goldthwait stands out with his unique performance, making even his less-than-hilarious scenes somewhat enjoyable. While the movie still struggles with overlong and serious action sequences that fail to impress, it's a welcome change from the more action-oriented finales that followed. The franchise as a whole has its moments, but it's clear that not all of them are created equal. The best jokes can be found in other films like Wayne's World and The Simpsons, which makes this series more of a novelty than a standout comedy franchise. Despite this, the theme music remains a highlight, with Robert Folk's iconic earworm deserving of better recognition. There have been rumors of an eighth film or even a reboot, which could potentially breathe new life into the franchise. Given that some films were never particularly good to begin with, it might be worth revisiting those ones instead of trying to improve them. With the right approach, a Police Academy revival could become an entertaining addition to the 80s comedy canon. Police Academy Franchise: A Series of Films with Mixed Reactions The sixth and final film in the series, Mission to Moscow, received the least favorable response from casual viewers. In contrast, Police Academy 7 features a Russian mafia target while Sgt. Mahoney's absence is felt throughout the movie. City Under Siege reunites many original cast members as they tackle daring heists in the affluent Wilson Heights neighborhood. The discovery of an internal mole leads to a bumbling undercover effort that threatens the case. Police Academy 5 focuses on Commandant Lassard receiving an honorary award, which accidentally leads to a treasure hunt across Miami Beach. Meanwhile, Citizens on Patrol sees Sgt. Mahoney training a civilian police unit, but they struggle with their new recruits. The original lineup returns in Back in Training to train new recruits before the station is threatened with closure due to budget cuts. However, Commandant Mauser's plot throws a wrench into their plans. Their First Assignment follows a brutal street attack by a local gang called The Scullions, which prompts Mahoney and his team to take action against Zed and his crew. The original "Police Academy" film from 1984 remains the standout entry in the series, thanks to its lighthearted and humorous take on a group of misfit police trainees. Directed by Hugh Wilson, the movie established the tone for the subsequent six films, which followed the antics of a bunch of goofy recruits led by Carey Mahoney, a carefree cadet more concerned with having a good time than learning the ins and outs of law enforcement. The dynamic between Mahoney and his no-nonsense superior, Lt. Harris, provides much of the comedic relief in this classic comedy film.
